

mVisor 7001 Face Shield

CE

mVisor 7001 - mShields face shields provide full coverage protection for your face when exposed to coughing and sneezing. The face shields are lightweight and molded in the lasting substance polycarbonate which has spray and shook resistant qualities. The wearer's sight remains unaffected by the face shield as the material is clear, transparent, and prevents fogging. The face shields are padded with foam and has adjustable straps for an optimal fit.
